Ether Infotech
Coimbatore
Learnt Web Development with PHP and MySQL
January 2023 (20 days)

PROJECTS

Splurge Bin
An e-commerce website made with Laravel, Bootstrap and MySQL database. It has separate sides for both customers and sellers each having their own particular features.

Taxi Service
A laravel project with MySQL database. Bing Maps API is used for map-related features. When an user requests a ride, it will be automatically assigned to the driver nearby using a specific logic.
